

## MCE's Approved Electric Vehicle Supply Equipment (EVSE) Vendors

**Below is a list of approved vendors for MCE's EV Charging program. The average total project cost for customers in this program is \$8,000–\$10,000 per port for networked Level 2 charging.**

The total project cost accounts for hardware, software, networking fees, O&M package, installation, parking lot improvements, signage, ADA compliance, and permitting. This list does not represent an endorsement by MCE of any specific company or product. MCE makes no representations regarding manufacturers, dealers, contractors, materials, or workmanship of the EVSE package selected and installed by the customer. MCE recommends getting at least 3 quotes before making a selection.
