

How MCE Works

You

Benefit from cleaner air, stable rates, choice, and local control

PG&E

Delivers energy, maintains lines, and sends bills

MCE

Buys and builds fossil-free energy for you

What is Impacting Energy Affordability?

- Rising costs for wildfire mitigation
- Growing electricity demand
- Costs for renewable energy
- Solar curtailment
- Regulatory changes
 - Resource adequacy
 - PCIA
 - Line loss accounting
 - 24/7 GHG accounting

PG&E Rate Increases

 PG&E delivery rates have increased nearly 90% since 2020

• 2-5 rate changes per year – March 1st was most recent increase (~1.5% increase)

 ~65% total rate increase for MCE customers since 2020 (including MCE and PCIA rate changes)

Proposed MCE Demand Charge Increase

- MCE is proposing adjustment to demand charges for certain commercial rates effective April 1, 2025
 - B19/20, E19/20, AGC, and AG4B
- The affected rates would increase by 4.4% on average or ~2% total bill impact
- Still a 5% discount relative to PG&E demand charges
- These adjustments impact less than 1% of MCE customers
- Does not impact residential customers

Proposed MCE Demand Charge Increase

- MCE's demand charge increase proposal will be discussed and voted on at the March 20th board meeting
- MCE's first proposed rate increase since January 2023
- Sends stronger price signals and encourages businesses to spread their electricity use throughout the day
- Maintain rate competitiveness for MCE's residential and small business customers

Discount Programs

• MCE Cares Credit - Residential Customers enrolled in CARE or FERA are eligible to receive a monthly \$20 discount. Small to medium-sized businesses may receive a monthly \$25 discount.

• California Alternate Rates for Energy (**CARE**) - Incomequalified customers receive a 35% discount on total electricity cost and a 20% discount on natural gas.

 Family Electric Rate Assistance (FERA) - Income-qualified customers living in household of three or more are eligible to receive an 18% discount on total electricity cost.

• **Medical Baseline Allowance** – Customers with qualifying medical needs and devices may receive additional gas and electricity usage allotments at the lowest available rate tier – plus notification in the event of a Public Safety Power Shutoff (PSPS).

Bill Payment Assistance

- Arrearage Management Plan (AMP) Customers enrolled in CARE or FERA who have been PG&E customers for more than six consecutive months, and are more than 90 days behind on their bills may receive up to \$8,000 in assistance on their past-due balances -- if they are able to pay the amount due, going forward, for 12 months
- Relief for Energy Assistance Through Community Help (REACH) - Income-qualified customers who have been disconnected or received a 15-day or 48-hour disconnection notice may receive an energy credit of up to \$300 based on past-due amount.
- Low income Home Energy Assistance Program (LIHEAP)

 This federally funded program offers financial assistance of up to \$3,000 per year, along with fee energy-efficient upgrades and energy related home repairs to help lower your energy bills.

Energy Efficiency Programs

Home Energy Savings

Free home upgrades (attic insulation, duct seal, heat pump HVAC, heat pump water heater, etc.)

Multifamily Energy Savings

Technical assistance and rebates for energy efficiency and electrification upgrades at deed-restricted multifamily properties

Small Business Energy Advantage

No- and low-cost upgrades for small businesses in Priority Communities

Energy Efficiency Programs

Strategic Energy Management

Operational changes that save you money

Commercial Efficiency Program

Technical assistance and rebates for energy saving upgrades

Agriculture and Industrial Resources

Technical assistance and rebates for energy saving upgrades

Electric Vehicle Programs

Income-Qualified EV Rebates

\$3,500 per vehicle Stacks with other incentives

MCE Sync

Automates EV charging at home to use the least expensive and cleanest energy on the grid

Workplace & Multifamily Charging

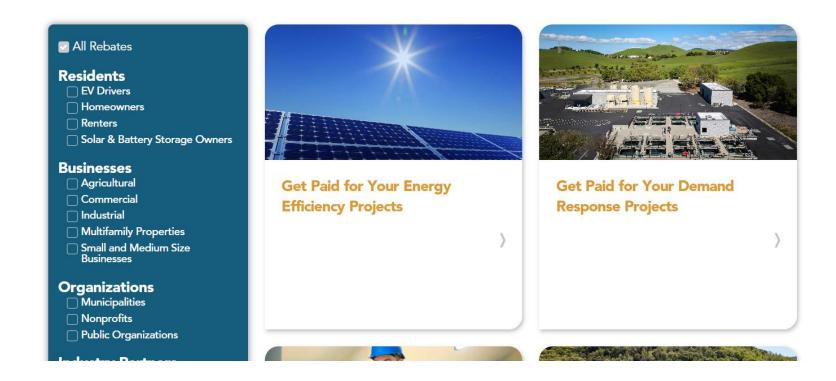

2,000+ ports \$3,000 rebates for workplace and multifamily properties

Questions + Listening Session

mceCleanEnergy.org info@mceCleanEnergy.org

We Want To Hear From You!

- How can we support our communities in learning more about energy savings?
- What are the avenues to reach our communities with resources?
- What are you hearing from your communities about the cost of electricity/utilities?
- What resources and information can your organization share to help inform our communities about energy costs and energy/bill saving opportunities? What do you need from us?
- What are the barriers for people to adopt technologies and programs for energy savings?
- What do we need to consider to support people in investing in long term energy saving programs?
