Subject: Photos of possible staging or prestaging of Corby BESSE module storage containers on or near proposed site

You don't often get email from blueskier@sbcglobal.net. [Learn why this is important](#)

These are the photos I talked about during my presentations at your board meeting last night. I took these photos on 1-15-26 and these storage units about 100 of them closely resemble those shown in area view that Corby has displayed in its presentations. I can't confirm these are the Corby containers for sure, but with the lack of integrity that has been shown by Corby I would not be surprised if it is in fact there containers and staged without approval or proper permitting. This site can also be observed from eastbound I-80 as you leave Vacaville going towards Dixon between Leisure Town Road and Meridian Road Exits

Respectfully

Lewis Derfuss
