This Transaction is governed by the WSPP Agreement, the current version of which is effective October 21, 2024 (“Master Agreement”). The Master Agreement, WSPP Service Schedule R, and this Confirmation shall be collectively referred to herein as the “Agreement” and will constitute a single agreement between the Parties with respect to the Transaction and supersede and replace any prior oral or written confirmation regarding the Transaction. Terms capitalized but not defined herein shall have the meaning as set forth in the Master Agreement, WSPP Service Schedule R or the CAISO Tariff. Any conflicts between the Master Agreement and the Confirmation shall be resolved in the following order of control: first, the Confirmation; and second, the Master Agreement.

The Parties agree as follows:

<p>Product:</p>	<p>“<u>Product</u>” means Portfolio Content Category 1. “<u>Portfolio Content Category 1</u>” or “<u>PCC1</u>” means Energy, along with the associated Green Attributes and Renewable Energy Credits (“<u>RECs</u>”) produced by a Generating Facility without substituting energy from another generating source (as defined by the CPUC in D.11-12-052), delivered on an hourly or sub-hourly basis to the Delivery Point during the Delivery Term. The Product meets the RPS compliance requirements of California Public Utilities Code Section 399.16(b)(1) and CPUC Decision 11-12-052, as applicable to the Energy and RECs transferred hereunder. To the extent not inconsistent with the foregoing, the Product is a Firm Bundled REC as such is described under Section R-2.3.2 of WSPP Service Schedule R.</p>
<p>Contract Price:</p>	<p>“<u>Contract Price</u>” shall be calculated as follows: $\text{Contract Price} = (\text{Energy Price} + \text{REC Price}) - \text{CAISO Credit}$ Where: “<u>CAISO Credit</u>” means the Energy Price paid by the CAISO for the energy associated with the Product. “<u>Energy Price</u>” means the applicable day-ahead hourly market, hour-ahead fifteen-minute market, or real-time five-minute market, locational marginal price clearing at the Delivery Point, as published by the CAISO, per MWh of energy delivered. “<u>REC Price</u>” is equal to \$ <input type="text"/> /MWh</p>
<p>Contract Quantity (MWh):</p>	<p>The “<u>Contract Quantity</u>” shall be as follows for the indicated REC Vintages: REC Vintage 2026: <input type="text"/> MWh</p>

<p>Delivery Term:</p>	<p>[Month Day, Year] - [Month Day, Year]</p> <p>This Confirmation shall be in full force and effect as of the Effective Date. The Parties’ respective obligations to schedule, deliver, and receive the Product shall apply during the Delivery Term. The Parties’ obligations with respect to the delivery of the component of the Product comprising WREGIS Certificates shall continue, if such WREGIS Certificates have not been fully delivered during the Delivery Term, for such period after the Delivery Term as required by Seller to fully deliver the WREGIS Certificates in accordance the Parties’ respective obligations to schedule, deliver and receive the Product pursuant to this Confirmation. Purchaser shall have the right to terminate this Transaction if Seller’s deliveries of Product (and associated transfer of WREGIS Certificates) are not completed in accordance with the Delivery Timeline; provided that Purchaser shall not have the right to terminate this Transaction solely for failure to satisfy the Delivery Timeline to the extent that: (i) an Uncontrollable Force directly impacts such Delivery Timeline; or (ii) demonstrable delays from WREGIS with WREGIS Certificate issuance exist for Facility Energy that has been Delivered in accordance with the Delivery Timeline (provided that such WREGIS Certificate transfers are completed no later than April 15 of the year following the applicable Reporting Year).</p>

The Energy associated with the Product will be directly delivered from the Generating Facility on an hourly or sub-hourly basis to the Delivery Point without substituting electricity from another source (“<u>Facility Energy</u>”).</p> <p>For Facility Energy delivered from a Generating Facility located outside of a California Balancing Authority Area, Seller or Seller’s designee</p>

	<p>shall schedule and E-Tag as applicable the Product to the Delivery Point on behalf of the Purchaser. These services will be performed consistent with all applicable CAISO, WECC, and other prevailing scheduling protocols. Seller shall provide MCE with each E-Tag showing a source of energy from the WECC (but outside of California), a sink in California, and shall have the CAISO Balancing Authority Area as the last CA (Control Area) under ‘Physical Path.’ Each E-Tag used shall: (a) list the Seller as the PSE (Purchasing Selling Entity) on the physical path leg into CAISO from the adjacent balancing authority area scheduling interface point; (b) designate MCE as the Purchaser by listing MCEE1 as the sink PSE after the energy is inside CAISO from the adjacent balancing authority; (c) insert “Marin Clean Energy” in the Comment section and state the amount of Product on the E-Tag allocated to Purchaser, and (d) include Purchaser on the E-Tag by carbon copy.</p> <p>Seller shall be the electricity importer for purposes of complying with the California Global Warming Solutions Act Cap and Trade Regulations and shall be solely responsible for any and all costs associated with such compliance and any and all costs associated with Scheduling or delivering the Product to the Delivery Point.</p>

Each Party agrees to provide copies of its applicable reports to the extent reasonably necessary for WREGIS to verify the accuracy of any fact, statement, charge or computation made pursuant hereto if requested by the other Party. A delay caused by any such notice from WREGIS or any other act or failure to act by WREGIS shall not constitute a failure of Seller to complete deliveries of Product (and associated transfers of WREGIS Certificates) in accordance with the Deliveries Timeline,</p>
