I am concerned at the direction MCE may be taking, as evidenced by the proposed Resolution 2026-02. CCA's by definition are community based organizations, very much focused on engaging with the public on strategy and direction. One of the most important objectives of MCE should be steadily moving away from procuring fossil fueled power. MCE's plans for achieving 100% clean energy and storage 24/7 should be clear and meaningful to all. This resolution would detract from that objective.

I urge the Board to reject Resolution 2026-02.

Thank you.
