Subject: MCE and Industry Communications Highlights 4.8.26

MCE Board of Directors,

Below is the most recent media audit of MCE that reviews press coverage, opinion pieces, and MCE communications channels. As always, please let us know if we can answer questions or provide additional information for you to share.

Best,

Jenna

By the Numbers

With the addition of the extra capacity at the Cormorant energy storage project in Daly City, this project will now provide 250 MW of capacity to MCE's portfolio. If this project were online today, it would provide 16.6% of MCE's 1,505 MW Resource Adequacy obligation between 5-6pm in September 2026. That's a major win for clean RA, supporting stable rates for MCE customers and a cleaner California for all.
