WHEREAS, since formation, the Marin Energy Authority has expressed an interest in pursuing energy efficiency programs and MEA's Implementation Plan expresses an intention to operate an energy efficiency program as part of MEA's work; and

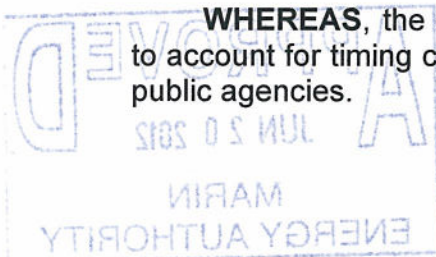

WHEREAS, energy efficiency programs often provide benefits to customers by reducing energy costs, and can also result in greenhouse gas reductions due to a decrease in energy usage; and

WHEREAS, the California Public Utilities Code provides the relevant legal authority for the MEA to act as a Community Choice Aggregator (CCA) and invests the California Public Utilities Commission (CPUC) with the responsibility for distributing energy efficiency funds collected through nonbypassable charges to customers of CCA programs, thus allowing CCA programs to administer energy efficiency programs; and

WHEREAS, the California Public Utilities Code includes provisions created through Assembly Bill 117 and Senate Bill 790 which authorize a CCA to elect to become a 3rd party administrator of funds collected from the CCA customer through a nonbypassable charge authorized by the CPUC for cost-effective energy efficiency and conservation programs; and

WHEREAS, the MEA has developed an Energy Efficiency Plan and elects to administer an energy efficiency program using funds collected in MEA's jurisdiction through nonbypassable charges; and

WHEREAS, the MEA Energy Efficiency Program Plan has been amended to account for timing changes and to incorporate recommendations from relevant public agencies.

NOW, THEREFORE, BE IT RESOLVED, by the Board of Directors of the Marin Energy Authority that the Amended Energy Efficiency Program Plan is approved for submittal to and certification by California Public Utilities Commission.
